ABSTRACT

In fall 1983, a follow-up study was conducted of all 1982-83 graduates of St. Louis Community College at Forest Park. Questionnaires were sent to 610 graduates of transfer programs and 1- and 2-year career programs soliciting information on graduates' current location, employment status, postsecondary educational experiences, reactions to the school's educational and guidance programs, and suggestions for improvement. Study findings, based on responses from 433 of the graduates, included the following: (1) of the 263 respondents who received an associate in applied science degree, 162 were working in a field related to their college major, 44 were working in an unrelated field, 37 were seeking employment, and 60 were continuing their education; (2) of the 86 responding transfer program graduates who received the associate in arts degree, 9 were attending a four-year institution full-time, 18 were attending a four-year college part-time, and 36 were employed full-time; (3) 109 graduates were continuing their education and working; (4) the average starting salary for all positions reported by the graduates was \$1,319 per month, while those working in a field related to their college major earned an average of \$1,348 per month; (5) 72% of the transfer graduates and 75% of the career graduates said they would take the same major if they had to do it all over again; and (6) 36% of the career graduates and 26% of the transfer graduates felt additional help in job search methods would have eased their transition from college to work. The survey instrument and a breakdown of student outcomes by program are included. (HB)

ST. LOUIS COMMUNITY COLLEGE AT FOREST PARK

DIVISION OF COUNSELING

1982-83 GRADUATE FOLLOW-UP STUDY

PREPARED AND CONDUCTED

BY

ROGER L. NIENKAMP
COORDINATOR FOR FULL-TIME
AND GRADUATE PLACEMENT

JULY 1984

JC 840 451

COMMENTS

The 1982-83 graduate follow-up study provides valuable information pertaining to four hundred and thirty-three (433) graduates of the Forest Park Campus. This information should be of significance to the Forest Park Campus Community in at least two ways:

-to assist in the review of various instructional programs

and

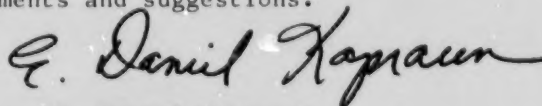

-to provide information to be used in the educational/career counseling of students.

This particular study should be of special interest to Forest Park instructional faculty and administrators in light of the five year vocational education evaluation to be conducted during the early part of 1985.

Surveys such as the 1982-83 graduate follow-up survey are designed to provide information concerning the raison d'etre of any institution of higher learning - ITS STUDENTS - who ultimately become its graduates and whose successes reflect the academic excellence of the institution. We hope that the survey results as presented in this report will provide you with additional information and insights concerning those students who have successfully completed a Forest Park program.

In closing I would like to remind you of the FOLLOW-UP STUDY AND EVALUATION CONFERENCE to be sponsored by the Division of Counseling during the fall semester, 1984. The purpose of this conference is to facilitate interaction among instructional and counseling staff members so as to improve our EMPLOYER FOLLOW-UP STUDIES and to incorporate the results into the program planning and counseling process. I hope you will be able to participate in our conference.

As always, we welcome your comments and suggestions.

E. Daniel Kapraun
Director of Counseling

INTRODUCTION

PURPOSE

The culmination of the whole process of vocational guidance and vocational education comes with the placement and adjustment of individuals into desirable occupations of their own choice and for which they are trained, so as to serve the best interests of themselves and society.

Placement and adjustment, then, are the most realistic devices for measuring the effectiveness of counseling and instruction, and represent the final outcome of the entire vocational adjustment program.

Therefore, a follow-up study of all Forest Park graduates of school year 1982-83 was conducted to determine their location, employment status, post-secondary educational experiences, their reactions to the school's educational and guidance programs, and their suggestions for improvement.

PROCEDURE

The procedure or method of follow-up was undertaken by mailing a questionnaire. The graduate students were identified and a request was made of Data Processing at the Administrative Center for mailing labels. A cover letter was enclosed with the questionnaire to explain the purpose of the study. About four weeks later, the initial mailing was followed by a second follow-up letter to those individuals who did not respond to the first mailing. The second mailing was followed by a direct telephoning. (A sample of the survey form and the respective cover letters follow this introductory section.)

SCOPE

This study includes transfer programs as well as one and two-year career programs. Six-hundred and ten (610) graduates were surveyed. Four-hundred and thirty-three (433) responses were received, including 286 received by mail, 116 by telephoning graduates, and 31 from Forest Park's job placement records. This represents a response rate of approximately seventy-one percent (71%).

SUMMARY

This is the seventh annual follow-up to be completed at Forest Park. Data obtained from previous studies is compared where possible.

**St. Louis Community
College**

at Forest Park

5600 Oakland Avenue
St. Louis, Missouri 63110
Telephone 314/644-9100

Dear Member of the Class 1982-83:

Every year on behalf of St. Louis Community College at Forest Park the Job Placement Office surveys the graduating class regarding their employment status and career plans. You, as a former student, can certainly help us to evaluate our efforts of the past and to plan for the future.

All information you provide will be kept confidential, only the summary tabulation of the responses is shared with faculty and students. Because this information is most useful in the career planning of undergraduate students, we urge you to help those who are following you by completing the enclosed questionnaire.

For your convenience, we have enclosed an envelope in which you can return the questionnaire to the college. A stamp is not needed. Your cooperation is greatly needed. Thank you for your time and attention given to this matter.

In addition, former graduates are always eligible for all Placement Office services. Graduates may at any time consult our listings of job openings, schedule appointments with employers, and receive referral to positions.

Best wishes for the future.

Sincerely,

Roger L. Nienkamp

Telephone 314/644-9100

Dear Member of the Class 1982-83:

In November you were sent the enclosed survey from requesting information necessary for us to evaluate our career programs at St. Louis Community College at Forest Park.

This information is vital to the future graduates of Forest Park. Your answers on the enclosed questionnaire will assist the faculty and administration not only in planning new curricula offerings, but also in improving and refining existing ones.

Your cooperation is greatly needed. We will respect the confidentiality of your answers. Please take a few minutes to complete the enclosed survey form and return it to me in the enclosed postage-free envelope. We would like to have all responses returned by December 31, 1983, so we can finalize our study.

Thank you for your cooperation.

Sincerely,

Roger L. Nienkamp

1982-83 Graduate Follow-Up Survey

BACKGROUND:

1. Name _____ Student Number _____
2. Curriculum (Program) _____
3. Degree: AA _____ AAS _____ Certificate _____ Date of Graduation _____
(Mo./Yr.)
4. Current Address _____ Phone _____
(Street)
- _____ (City) _____ (State) _____ (Zip)

CURRENT EMPLOYMENT STATUS: (For those currently employed)

5. Employment status: (Check appropriate items)

_____ Employed full-time
_____ Employed part-time
_____ In Military Service
_____ Unemployed, and seeking employment
_____ Unemployed, and not seeking employment
_____ Other _____

6. If working, please complete the following from your present job:

Name of Company or Firm _____

Address _____

Your Position (Job Title) _____

Starting Date _____ Salary (per month) _____
(Mo./Yr.)

Briefly describe your job _____

7. Does the above position relate to your Forest Park degree or certificate received? Yes _____ No _____

8. How did you obtain your job? (Check all appropriate items)

() On your own () Private Employment Agency
() Forest Park's Placement Service () Newspaper Want Ads
() Instructor's Assistance () Other _____
() Missouri Division of Employment

9. Is this your first job since graduation? Yes _____ No _____
(If no, please list other positions held on separate page.)

(SEE OTHER SIDE)

EDUCATIONAL STATUS: (For those currently enrolled in an educational program)

10. Are you continuing your education? Yes ____ No ____
11. If continuing your education, is it: (Check all appropriate items)
- | | | | |
|------------------------------|-----|-----------------------------|-----|
| Full-time (12 or more hours) | () | Vocational-Technical School | () |
| Part-time | () | Military Specialist School | () |
| Four-Year College/University | () | Other | () |
| Two-Year College | () | | |
12. Name of School _____
- Program and degree being sought _____
13. Is your current school program related to your Forest Park program?
Yes ____ No ____
14. Why did you decide to gain additional education? (check one)
- ____ I tried to find a job, but couldn't
- ____ My career goal can only be attained through further education
- ____ I am interested in further education for my personal growth
- ____ Not certain
- ____ Other

EVALUATION: (For all graduates)

15. If you had it to do all over again, would you: (check one)
- ____ Take the same major
- ____ Take another major
- ____ Take a liberal arts major, but add job preparation
- ____ Take a more job-oriented major
16. Which of the following do you think would have benefited you in your transition from college to work? (check as many as apply)
- ____ Help in job search methods
- ____ Help in choosing a career field
- ____ Preparation for a career field
- ____ Help in adjusting to the non-academic world
- ____ Other _____
17. Any comments or advice for today's students?
- _____
- _____
- _____
18. Do you need employment assistance at the present time? Yes ____ No ____
- If your answer is yes, contact:

COMMENTS AND ADVICE
FROM 1982-83 GRADUATES
FOR TODAY'S STUDENTS

CAREER PROGRAMS - Associate in Applied Science

COMMENTS AND ADVICE

ADMINISTRATIVE MEDICAL ASSISTANT

- Get all the education; not only in school, but from every source of knowledge.
- Know what you want before you start.

ADVERTISING DESIGN AND COMMERCIAL ART

- Hang in there! Completing is sooner than you think. Start looking for a job before you graduate.
- Work hard at what you want, and then keep going.
- Be sure that whatever program you are studying is something that you are happy and satisfied with. Also, be sure that you achieve whatever high standards you set for yourself.

AUTOMOTIVE TECHNOLOGY

- If things don't come as fast as you expect, don't give up. There are jobs out there, just keep on trying.

CHILD CARE ASSISTANT

- My advice is to stay in college until they have the degree they want, because once you leave, it's hard to go back.
- If possible, stick with your field.
- Whatever the Mind of man can conceive and believe, it can achieve. Otherwise, whatever you want to do, there are ways to get it done and only you can make it happen.
- Listen and understand, because it will help you in the long run.

CHILD DEVELOPMENT ASSOCIATE

- Stay in school to further your goals.

CLINICAL LABORATORY TECHNOLOGY

- A degree is very important and I encourage continuing with school after graduation.
- An education is needed for a good job and it helps students find what interests them.

CRIMINAL JUSTICE-CORRECTIONS

- As an older person who returned to school after a long absence suggested; study hard, abide by the rules & regulations, respect your teacher and yourself.

- Stay in school as long as possible.

CRIMINAL JUSTICE-LAW ENFORCEMENT

- Good grades are important - improve resume skills - learn to always be prepared and on time.
- Jobs are hard enough to find and education can never hurt you when looking for a job.
- Set a goal and try harder.

DATA PROCESSING

- Take as many liberal arts classes and math as you can (and no matter what your major).
- The education I received at Forest Park was excellent, but I feel there is a real need for assistance in job search methods.
- Always strive for the top, because the bottom is full.
- Set your goals, learn your goals well, and do not rock the boat.

DENTAL HYGIENE

- Be ready for the real world by accepting situations for what they are and not the way you want them.
- I find my job very rewarding and my many hours of clinical studies at Forest Park did help the success that I am reaping from my patients.
- Start looking as early as possible. If you find a prospective job, be as interested as possible in them.
- Work hard and you will go far!
- Just be confident of yourself and your abilities and you will succeed for sure. This is an area I've always lacked in and I'm just beginning to gain mine.
- What is ideal and applicable to a clinic setting, is not applicable to a private office. This applies to patients as well as Dentists.

ELECTRONIC ENGINEERING TECHNOLOGY

- Stay in school and get all the education possible, because it will pay off in the long run.
- If you want to attempt a career in Music (or any of the arts), as I have, be sure to develop at least one other marketable skill while you are in school.
- Decide on a goal before school and then put all your efforts towards that goal.

- Keep studying, ask questions!
- Stick with it, it's the only way in today's job market.
- Thoroughly research a career field before choosing, especially the number of job openings.

FIRE PROTECTION TECHNOLOGY

- Strive for excellence!
- If a career choice is undecided, get the electives while seeking help to find yourself.
- As far as the Fire Technology program is concerned, it is a must for anyone entering or working as a career fireman.

FUNERAL SERVICE EDUCATION

- Check out the firm as much as you can before accepting any employment.
- Thoroughly research the job market.
- Try as hard as you can in order to make yourself succeed and never give up.

HOSPITALITY RESTAURANT MANAGEMENT

- Hang in there, it's worth it!
- It's a tough world out here. Be prepared to fight.
- Don't give up when looking for a job!
- Explore all points of each and every possible major.

HUMAN SERVICES

- Stay in school and further your education.
- When you're attending school try to learn as much as possible and be as serious as possible about learning it.
- I think they should stay for the two years at St. Louis Community College, because it really prepares you for a four-year college and plus you get the honor of an Associates Degree.
- If going on to a 4-year school, get verification of what will transfer from the school you are going to. I lost 20 credit hours!
- Be prepared to try a little harder in academic courses and have a good grade point average to show that you can learn.

MASS COMMUNICATIONS

Page 4

- If you have a career goal, have the initiative to achieve your goal. You can accomplish anything you set out to be.
- My advice for today's students is to choose their career fields with extreme care. Do in-depth research into the job market and employment trends, to be sure that position will exist tomorrow.

NURSING

- Work part-time as much as possible, during nursing education, to gain confidence in one's skills.
- Work hard and try for perfection; but realize that that goal is not always possible.
- Work while attending school, if at all possible. Start looking for a job early, prior to graduation.
- Get out and get some practical experience, even while in school. A good work reference is important, even if it doesn't pertain to your particular field.
- I think that if your students have more on-hands experience, the more their transition will go smoothly, as well as experiencing the real life situation of their career field.

RADIOLOGIC TECHNOLOGY

- Whatever career you're presently in college for, try very hard to make the best of it, because today's job market requires highly skilled personnel.
- Stick with it and never stop trying to better yourself personally and academically.

RESPIRATORY THERAPY

- Make sure you enter a field in which you will truly be happy and content with. Also, do your very best in that field.
- Take it a day at a time while remembering to keep the end in mind.

SECRETARIAL

- Always try to keep your grades and average up to at least 3.0. That helps in the job market.
- I am very proud to be a graduate from Forest Park. And students, please take your studies seriously, because the work can make you feel at ease when you are capable and qualified.
- Study hard because it will help in the long run.

- Get as much training as possible and don't wait to get the job you want. Do it as soon as you enroll into the program for on-the-job-training. Pay attention to detail.
- College is very important. Most companies like to hire employees with a college degree or at least with some college.

COMMENTS AND ADVICECHEF'S APPRENTICESHIP

- Work!!!! - in your career field, even if it is for no pay. I did, and it helped. A good thought - 90% hard work - 10% talent.

FIRE PROTECTION TECHNOLOGY

- Choose an endeavor that you enjoy and become as well educated in that field as is humanly possible. Education should never end!

MEDICAL OFFICE ASSISTANT

- Enter any college with a mind to learn and exit with a mind to use what you have learned to benefit the human race.
- My advice to today's students is to be sure you choose a career that is very much in demand and try to maintain a high grade point average.
- Try your hardest, no matter how tough it gets. Do something you enjoy. Have a good attitude towards your major.

MICROPROCESSORS

- Electronics, especially in the computer field, is still growing strong; and Forest Park offers a very good program for those interested in entering this field.
- Get to be friends with instructors.

RESPIRATORY TECHNOLOGY

- Have some kind of work experience, even if it doesn't apply to your major.
- If possible, try to finish as much of your schooling as possible, before going to work.

SURGICAL TECHNOLOGY

- Start looking for possible positions before graduation.
- Be willing to travel to another state to obtain good job security. Don't be afraid to leave home!!

COMMENTS AND ADVICEARTS AND SCIENCES

- Enjoy your education; don't get so bogged down in studying that you miss the joy of learning.
- Can't get a job without a skill of some skills.
- Take courses that are beneficial for job placement.

BUSINESS ADMINISTRATION

- My advice for today's students is to have confidence to be successful. Also, self-respect.
- Keep striving, keep working and try to keep your enthusiasm.
- To all students, regardless of what major you take, add at least one computer language.
- Maintain and try to obtain career goals and know what steps are needed to obtain goals before setting them.
- A degree is simply not enough. One must produce quality output on a consistent basis. Top level skills and a strong background in human relations skills. Continue your education through seminars, conferences, etc.
- Try to get exposure to a variety of jobs and to the duties to be performed - compare what you want from a job to what the job has to offer - take the necessary courses - contact placement.
- For today's student without an education, there is no hope for a decent job.
- Seek part-time or full-time employment concurrent with your major or minor.
- Get as varied a curriculum within your field of study as possible, on the practical side, to aid employment.
- Stay in school, study long and hard, and reach that goal, no matter what it takes. Without a professional skill or degree, opportunities are just limited.
- Get all the education you can get.
- Study hard, don't give up on your dreams and goals.
- It's not really which college you attend, but what your attitude is towards learning. Make yourself versatile in different careers, if possible.
- Get all the education and knowledge you can, whatever it costs.
- It is very competitive in the job market. You can pay now by getting the best education possible in a field in demand, or pay later by getting anything you can get.

- A college degree is essential in today's market. Even if a degree has to be obtained at night - it is worth the effort.
- Students should seek help from their counselors in reference to their career major; what courses of study to take, and should be oriented in job preparation techniques on how to sell themselves to the employer.
- I would advise all students to set down and go over their wants and needs with a counselor. This is the one thing I wish I had done and not try it on my own.

GENERAL TRANSFER

- Work experience!!! and a good personality always helps to get a job.

LIBERAL ARTS

- My only advice is that they don't waste their time. Do as well as they can and learn as much as they can, especially if they intend to further their academic education.

MUSIC

- Education is the best investment one can make in one's future.
